

Henry Ford is expected to take advantage of the 15-horsepower airplane that sailed from Washington to Dayton, which will cause quite a rattle among the air forces.

Tonight partly cloudy; in east; fair in west. Wednesday fair and warmer.

FIVE CENTS THE COPY

## NEGRO ATTACK CAUSES THREE DEATHS

### ADA HI TO SEND MANY DELEGATES TO ANNUAL MEET

Band and Orchestra Rated Prospective Winners in State Meet.

#### NON-ATHLETIC ENTRIES

Ada Track Squad Slated for High Mark Against Best of Oklahoma.

Ada Hi will send 56 representatives to wrest honors in athletic and non-athletic events at the annual state interscholastic meet at Norman on Thursday, Friday and Saturday of this week, according to the announcement of Principal W. A. Hill.

A special Pullman car leaves Wednesday afternoon, carrying Ada Hi representatives and school followers to the annual meet.

In entering 56 delegates in the various athletic and non-athletic events at the state meet, Ada Hi has outstripped all other efforts of past school years to claim honors in competition with the high schools of the state.

Principal Hill viewed the accomplishments of Ada entries in various events during the district meet, which was held here April 20 and 21, and expressed his optimism over the chances of the school in bringing back to Ada many trophies in the events contestants have been entered.

Ada Hi is expected to make its strongest claim in the band contest, in which Ada Hi will enter a 32 piece organization, rated as one of the best in the state. Although without competition in the district meet here, Principal Hill, who is instructor of the band, expects to furnish competition for the best in the state at the state meet. The Ada Hi band carried off second honors last year and Instructor Hill believes that the uniforms and other improvements over last year's organization will place the band within reach of first honors.

Orchestra Rated High

Ada Hi's orchestra is expected to be another strong feature of the school's representation. The orchestra under the instruction of Professor B. K. Cudd has caused considerable comment this year.

Other non-athletic events in which Ada Hi is expected to make competition lively are: voice, Jackie Wright; reading, Pauline Rell; extemporaneous speaking, Fay Laird; Chemistry, Jeter Sneed and G. M. Coffman; Latin, Haskell Rogers; geometry, Fred Smith; algebra, Charles Perry.

#### Winners in Athletics

The Ada Hi track squad is slated to be one of the strong teams in the athletic field meet, according to the present dope.

Records attained by Ada Hi athletes in the district meet here stand among the best in the state and is expected to place them in good standing at the meet.

Potts and King, Ada's two-man pointers in the district meet, set records that stand high among the other district meets of the state.

The Ada Hi relay team, while finishing behind the Oklahoma School for Deaf at Sulphur, was pitted against an exceptionally well balanced machine and one that tallied over the records in the Oklahoma School for Deaf team meet, which leaves the Ada team the best in this district and in good rating with others in the state.

Individual feats of Ada Hi athletes stand high with the state prospects. Potts in pole vault, easily made the new high mark for the district at 11.3. Gibson at Durrant in the southeastern meet broke the state record with 11.6. Potts made the record after he had participated in a number of events on the field. King in his broad jump record here stretched the distance to 20.9, which stands well with prospects over the state. Potts and King in hurdle races clipped near the record and will be in the running at the state.

WILLARD SCHOOL SENDS STUDENT FOR SPELLING BEE

Ava Saunders of the Willard school, Ada will represent Pontotoc county in the spelling bee at Oklahoma City Wednesday when every county in the state will take part in the contest.

The Ada representative gained the right to take part in the state meet by defeating all contestants in the county meet.

## Unearth Body of Missing University Lad

### Dawes Takes Over Comptroller Job; New Head of Board

WASHINGTON, May 1.—Henry M. Dawes of Chicago today took office as comptroller of the currency and D. R. Crissinger of Ohio, the retiring comptroller, became governor of the federal reserve board, a place to which he was confirmed by the senate at last session.

Mr. Crissinger's transfer to the board leaves only one vacancy in that body, the "dirt farmer's" place made vacant through the death of Milo D. Campbell of Michigan.

Mr. Dawes is a brother of Charles Dawes who was comptroller from 1898 to 1901.

### SHOPMEN STRIKE CASE ABANDONED

Counsel for Strikers Drops Defense of Federal Injunction.

(By the Associated Press)

CHICAGO, May 1.—Leaders of the striking railway shopmen today abandoned their case in their defense against the federal injunction against the federal government.

The announcement by counsel for the defendants coming 24 hours in advance of the hearing on the government's application for a permanent injunction caused Blackburn Esterline, assistant solicitor general of the United States, to declare that the virtual abandonment of the defense is to be regarded as a fiasco.

Attorneys for the defense have withdrawn at the request of the officers of railway employees department of Labor, Donald Richberg, defense counsel, explained. He said the shopmen were satisfied with the situation and that the government could find such satisfaction as they could and do as they wished with the case.

### STATE PAYMASTERS IN ROW OVER TAX RULING

(By the Associated Press)

OKLAHOMA CITY, May 1.—The constitutionality of the bill passed by the Ninth legislature appropriating \$2,250,000 to repay state and valorem taxes illegally collected for 1921, was attacked today by Fred Parkinson, state examiner and inspector, and C. C. Childers, state auditor. They called the governor's attention to the alleged vagueness of the bill and asked that an opinion be obtained from the attorney general for submission to the state equalization board which meets this afternoon. The attorney general is out of the city, however, and an opinion could not be had before the board meeting, it was said at his office. It is expected that the board will take the matter up without an opinion.

### Three State Civil War Vets to be on List of Honored

(By the Associated Press)

OKLAHOMA CITY, May 1.—The names of three of Oklahoma's foremost heroes of the Civil War will be carved on the huge memorial the sculptor, Gutzon Borglum is carving on the face of Stone Mountain, near Chattanooga, Tenn.

The men whose memories are to be so honored, nominated by Gov. J. C. Walton at the request of the Stone Mountain Memorial association, are General Stand Watie, Colonel Douglas H. Cooper and Lt. Col. Chilly McIntosh, it has been announced. The memorial is to picture in heroic relief General Lee's army on the march.

#### Oppose Railroad Grouping.

(By the Associated Press)

ST. LOUIS, May 1.—Opposition to the proposed grouping of the railroads of the country into nine big systems was voiced today at the Interstate Commerce commission meeting here on the plan.

### SKELETON FOUND OF MISSING LAD; PROBE DEMAND

Authorities Believe Remains of Missing Northwestern University Lad Found.

#### CHILD FINDS BONES

Lad Reported Missing After Student War at School.

(By the Associated Press)

CHICAGO, May 1.—Leighton Mount, Northwestern university student, missing since the 1921 class rush, whose skeleton was found on the Evanston lake front last night, was killed in the class rush, Chief of Police Liggett of Evanston declared today.

"Mount's body was carried to the pier after his death and buried beneath heavy stones," the chief said. "There could be no other explanation of the presence there of the skeleton. It is likely that Mount was killed accidentally during the class war in September, 1921, and that his body was hidden by students."

Chief of Police Liggett and President Walter Dill Scott of the university met to arrange for an inquest tomorrow.

CHICAGO, May 1.—Portions of a skeleton found last night underneath a pier on the lake front at Evanston have been identified as that of Leighton Mount, a student of Northwestern university who disappeared in September, 1921, after a class rush.

The finding of the bones started an investigation into the cause of his death and recalled the search for him that has continued since his disappearance.

The night that Mount disappeared, Sept. 21, 1921, he was with a number of freshmen in a class rush against the sophomores. All trace of him was lost after he disappeared.

Henry Warner, a 12 year old boy, discovered the bones when he crawled through the small hole in the concrete out of curiosity. He told his mother and she called the police.

Identified by Belt Buckle.

Near the bones were found a silver belt buckle bearing the initials "L. W.", a piece of rope, a scrap of canvas and a piece of cloth. Both arms and one foot were missing.

The pier is walled in on three sides. Police said it was possible that the body might have been washed underneath by the lake waters.

An element of mystery surrounded Mount's disappearance. Students reported that they saw him and one said he met him on the street and waved to him.

Chief of Police Liggett of Evanston declared he did not believe the students were responsible for Mount's death, but that his force was giving thought to that possibility.

#### New Time Table

Announced Here on Frisco Trains

(By the Associated Press)

The Frisco railroad has issued a new passenger schedule which takes effect Sunday, May 6, at 12:01 a. m. Trains will arrive at Ada as follows:

North  
No. 118—3:22 a. m.  
No. 510—12:30 p. m.  
No. 512—leaves 5:15 p. m.

South  
No. 511—12:30 p. m.  
No. 117—12:29 a. m.  
No. 507 arrives 7:35 p. m.

The Kansas City sleeper on No. 507, leaving Ada at 5:15 p. m., will be attached to the train here, instead of at Francis as heretofore.

#### CYCLONE DOES LITTLE DAMAGE AT STONEWALL

(By the Associated Press)

STONEWALL, May 1.—Special)—A cyclone passed over Stonewall shortly after noon today, but so far as can be learned it hit the earth at only one place in the neighborhood. The barn of J. D. Fecce, county commissioner-elect, was damaged. Mr. Pace's farm is a mile west of town.

Several are reported to have seen the twister as it made its way over the little city.

### Masonic Certificate Has History

J. H. Grant, who is probably the oldest Mason in Oklahoma in point of length of membership, has a certificate of membership that has an interesting history. It was issued to him when he became a member of Wade Lodge No. 281, Piqua, Ohio, September 12, 1862.

At that time Mr. Grant was serving in the Union army and he carried the document, which was contained in a leather case, with him on the campaigns in Virginia. In 1863 when the Confederates under Lee started on the march to Penn-

### Small Plane Latest Step In Air Feats

(By the Associated Press)

DAYTON, O., May 1.—Gliding 25 miles against a 43 mile wind with a motor developing less than 15 horse power, Lawrence Sperry arrived at Dayton last night after a four hour flight from Washington, D. C. Twenty-five horse power had previously been required to keep a plane in the air.

Sperry flew in the Sperry Messenger, the smallest ship ever flown successfully. His only stop was at Mountville, West Virginia. He maintained a safe altitude with his motor running 1,100 revolutions per minute or 750 revolutions slower than previous records.

### HOLD WOMAN ON FEDERAL CHARGE

Louisiana School Teacher is Alleged to Have Shipped Babe to Oklahoma.

(By the Associated Press)

OPELOUSAS, La., May 1.—The state had taken no action early today against Miss Josie Fultz, high school teacher at Scott, who is charged by the federal authorities with having sent a parcel post package containing the body of a new born infant from Scott to Duncan, Oklahoma, April 16. She is said by authorities to have confessed.

Miss Fultz, who was brought here yesterday waited arraignment before the United States commissioner and was released on bond for \$2,500.

Physicians attending Miss Fultz at a local hotel issued instructions that she was not to be removed from her room and permitting no one except her relatives to see her.

### KRUPP ARRESTED FOR INCITING PLANT CREW

(By the Associated Press)

ESSEN, May 1.—Dr. Gustav Krupp von Bohlen and Halbach, president of the Krupp works here, was arrested today by the French military authorities in connection with the shooting at the Krupp plant on March 31 when 14 Germans were killed and 30 wounded in a clash with French troops. The French charged that Krupp directors were responsible for the blowing of the siren whistle which incited the German workmen to attack the troops sent there as the French have explained to commandeer automobiles.

Dr. Krupp von Bohlen will be tried with other directors at Werdn on Friday, May 14.

#### OUSLEY ATTENDS MEETING OF STATE LEGIONNAIRES

(By the Associated Press)

OKLAHOMA CITY, May 1.—Alvin Ousley, national commander of the American Legion, arrived here today to attend a meeting of post commanders and adjutants of the organization in Oklahoma. With state and city officers he reviewed a parade this morning in connection with the celebration of "Legion week." The Legion head is scheduled to deliver an address to the public late today.

### CANADIAN RIVER BRIDGE TALKED

Lions Continue Discussion of Connecting Link for Two Counties.

Discussion of a bridge across the Canadian river connecting Pontotoc and Seminole counties continued at the semi-monthly meeting of the Lions Club today. J. W. Mann of the Mann Construction Company was present and stated that his company would make a survey and be ready to give some definite information within two weeks. President Ellison, at the request of some of the members, will ask the county commissioners to be members of the standing bridge committee. The club wants to assist these men in every way.

Talks on various phases of the bridge were made by Tom D. McKeown, Rev. J. H. Ball and Orel Busby.

Harry Miller told of the plans for a Boys' Week here in the near future. Elaborate plans are under way to make this one of the main events of the summer season. The club agreed to give every assistance.

Orel Busby reminded the members that the college is not entirely out of danger, as a bill will probably be introduced, and it is not known what schools will be included in it. He urged citizens to be ready to cooperate and lend assistance when needed.

Superintendent J. E. Hickman told of the necessity of voting the extra levy for the schools on next Tuesday. Failure to vote this levy will mean the schools cannot run more than three or four months, he stated. Wm. L. Whitaker reminded the members that the levy is the same that has been voted every year for a long time.

Robert Wimlish, royal lion tamer, introduced Orl F. Davison, of the city water department, as a newly elected lion. He reminded the club that it takes a game fish to be a real lion.

L. A. Ellison, the president, was elected to represent the club at the national meeting in Atlantic City at the next annual convention.

Miss Lee, one of the expression students at the college, delighted the club with two reading selections. Her charming manner and ease of expression showed much talent and training.

The meeting was one of the most enthusiastic held this season. It was well attended, this being the second held since the attendance drive started.

### Bankrupt Stock of Mosers to be Sold Within Thirty Days

A firm known as the Consolidated Store Wreckers has purchased the W. G. Moser stock of goods on East Main street from the creditors of Mr. Moser and is planning to sell the stock within the next thirty days. C. E. Bradley will be in charge of the stock here.

Mr. Moser has been in business in Ada for ten years and has made many friends. He will continue to make his home here, though he will be away a great part of the time. He is traveling for a well known manufacturing concern.

The new firm is not to be permanent, but will sell the stock and vacate the building, according to an announcement this morning.

Motor vehicle accident insurance rates are higher in New York City than anywhere else in the world.

Old age is comparatively fearless.

### Too Fat For Sentence, So Indian Dies

(By the Associated Press)

MUSKOGEE, May 1.—Bill Dougherty, a full blood Indian who on account of his size could not get into the county court house yesterday, dropped dead at the county farm this morning. Dougherty was under bond charged with murder. He had been a county charge for sometime and yesterday expressed a willingness to plead guilty and accept sentence so that he would no longer be an object of charity.

Dougherty weighing 496 pounds could not get through the revolving doors of the court house. The district judge refused to sentence him and committed him to the county farm.

### TO KEEP LINERS DRY FOR PRESENT

Harding and Lasker Confer on Ruling of Court on Floating Bar.

(By the Associated Press)

WASHINGTON, May 1.—Definite indications were given by Chairman Lasker of the shipping board after a conference with President Harding today that government owned ships would be kept "bone dry" for sometime, at least, although under yesterday's decision of the supreme court they could legally carry and serve liquor on the high seas.

Mr. Lasker discussed with the president every phase of the situation arising from the decision. Later the president took the same matter up with his cabinet and it was considered likely that a definite statement of the administration's course would be forthcoming before night.

With respect to selling liquor on American government owned ships, it was pointed out that no facilities now exist for supplying of such ships on this side under the court's ruling. Officers also doubted whether it would be expedient to resume the sale of liquor on such ships in the face of almost certain attempts in congress to forbid it.

### CLAIM GIRL'S DEATH IS SUICIDE EFFORT

(By the Associated Press)

CLAREMORE, Okla., May 1.—Miss Cora Frye, a Verdigris farmer girl, found dead in a water trough early Sunday morning, took her own life while temporarily insane, according to the theory accepted by County Attorney Edgar Anderson and Sheriff J. E. Herndon, following an investigation.

The young girl who was to have been married Sunday morning to "Ruddie" Hall of Verdigris was found with her wrists and throat slashed, but physicians said she died from drowning. She was clad only in her night dress and was barefooted when found. A bloody butcher knife was found near the house. A trail of blood led to the spring. The ground was too hard to take an impression of her foot.

### THREE SLAIN IN WAR WITH NEGRO OVER PAY CHECK

Negro Goes on Shooting Spree When Refused Check by Coal Company.

#### BARRICADES IN HUT

Negro Slain After Officer and Observer Meet Death from His Attack.

(By the Associated Press)

HELENA, Ala., May 1.—Failure of John King, a negro, to receive his pay check resulted in three men, including the negro, being killed and two others being wounded late yesterday and last night. The house in which the negro barricaded himself was dynamited and fired by a posse of nearly 100 officers and citizens.

According to witnesses the negro came to the office of the coal company early in the afternoon and asked for his pay. After being told by Allen Abernathy, the time clerk, that he would have to wait for his check he left without comment.

He returned in a few minutes drew a pistol and shot Abernathy in the side, fatally wounding him. He then ran from the office.

King barricaded himself in his house about 300 yards from the office with a rifle, shotgun and revolver.

A force of deputies and a posse of officers went to King's home to arrest him. King's reply was to open fire, wounding Colley Roy. He continued firing and wounded J. W. Roy. Officers, then retired and sent out a riot call.

#### House Is Dynamited.

When reinforcements came it was decided to dynamite and fire the house to dislodge King. Officers set fire to the place and King was forced by the heat to take refuge beneath. When the blaze became intolerable he dragged himself from the house towards the gate, firing at random. His last shot killed Charley Phillips, who was unarmed and standing on an embankment looking down on the negro's house for signs of him. The negro crawled to the gate when a bullet struck him just above right eye, killing him. The negro's of Helena remained quiet during the shooting. More than 2,000 rounds were estimated to have been fired.

### WHITEHURST MAY HAVE NEW BOARD

President of Board Says Walton Plans to Name New Board Members.

(By the Associated Press)

OKLAHOMA CITY, May 1.—Definite indications that Governor Walton plans to appoint a new board of agriculture was given today by John Whitehurst, president of the board, who announced that the executive planned to attend a board meeting at the capitol this afternoon. The governor was not at the capitol and no statement was forthcoming from his office.

"The board is the governor's," Whitehurst said. "I will be a good soldier and get along with anybody he names."

Whitehurst did not divulge his reasons for believing the governor planned a change in the board. He said that the governor had asked him to confer with him at the executive officers prior to the board meeting.

The present board is composed of W. H. Crume, Okmulgee; J. N. Roach, Atoka; Pete Coyne, Estella and A. P. Whitworth, Carmen. Whitehurst who is elected, completes the membership.

#### WALTON COMPLETES LIST OF UNIVERSITY REGENTS

OKLAHOMA CITY, May 1.—H. M. Arnold, prominent merchant and farmer of Buffalo, was named today by Gov. Walton to complete the board of regents of Oklahoma university. Mr. Arnold is a Democrat.

Gov. Walton yesterday removed all members of the old board except two, declaring that the school needed new blood and that it should be in Democratic hands.

## ASKING TOO MUCH OF SCHOOLS.

One of the mothers who expects too much of the schools and too little of their sons writes plaintively to the Philadelphia Record in part as follows: "I feel so worried at my prospects about my 17-year-old son. He will graduate from the high school this year. He has been going to school since he was six. His hands are like a lady's and he can't do any work but use a pencil. He does not know how to work, and I am poor. He knows a lot about history and the ologies, but has no trade or profession. It seems a shame to be at school so many years and not know one way to make a living."

Of course it is still open to debate whether the public schools provide enough manual training, and whether there is too much cramming of the "ologies," but the assumption that the schools ought to fit a boy to make a living or support a family at seventeen is manifestly absurd. Special school training later, or the school of actual employment, diligently sought and faithfully pursued when secured, must do that. The public schools are mainly intended to provide efficiency in the three R's and general enlightenment, with a view to the youth's protection and fitness to undertake further studious activities. It is pertinent to add that no poor family can afford to tolerate in it a boy of 17, who "can't do any work" and has hands "like a lady's." The hands of such a 17-year-old lad should show the effect of household chores as well as of outdoor games. And he should long since have begun his business training and advanced toward his duty of self-support by securing and industriously performing some sort of remunerative work outside of the home on Saturdays.—Exchange.

## U. S. GOVERNMENT AND SAVING

Saving and thrift are qualities which need not be extolled. Their worth has been proved time after time. It is he thrifty person and the saving families that succeed. In fact it has been demonstrated again and again that the road to success is reached by saving.

The United States Government has taken hold of saving in a practical way and has provided a plan which makes it easy for people to save in small sums and to make their small savings increase until a fair competence is acquired. The manner in which this can be done is told in a booklet on saving issued by the United States Government Savings System. Not only are the lessons of thrift told in clear and concise language but the facts about Treasury Savings Certificates, the gilt-edged Government savings security, are given in such form as any reader can readily understand it. This little booklet is sent free to anyone who will write to the Government Savings System in the Treasury Department at Washington.

## TRAIN THEM ALL.

Neither of the six state teachers colleges of Oklahoma will be abolished; that is certain. Oklahomans do not go backward; they go forward. If the cost of maintaining state government gets too heavy to bear, the cuts will be made in the less essential things. Trained teachers are in demand and will be more and more in demand as time goes by. So let's get it out of our minds that any of them will be abolished, at least as long as reason controls the electorate of the state.

But in view of the agitation we hear now and then about too many state schools, we recall a statement of Hon. R. H. Wilson. Wilson says that if any of the teachers colleges are abolished, all of them should be. It is his idea that a few of the teachers need not be trained unless all of them are to be. In other words, some pupils should not have the advantages of a trained teacher unless all can have that advantage.

## NO DEAD CITY, WE'LL SAY.

A few months ago it was common talk over the state that Ada was a dead town. That was wrong, for it has never been a dead town, and it is not likely to be for many centuries. But even the talk is now dying out. The news of the coming of a glass factory, the outlook for a big attendance at the college, the improvement and expansion and increasing output at the cement plant, increased output at the glass factory, the doubling of the capacity of the pickle plant, the activity at the brick plant, and a good many other things are causing a change.

When one gets away from Ada now, he does not hear it said that Ada is dead, but that things are improving. That's a big item, for we recall that some philosopher said as a man thinketh he is.

## AMBITIOUS.

Ada has just secured a second glass plant and is now intent on getting a packery also. It does beat all how ambitious one becomes when success begins to come our way.—Shawnee News.

Sure thing. One thing calls for another and at the present rate it will be only a few years until the trade-mark on several lines will be as well known over the Southwest as any other to be found in the United States. The best part about it is that Ada usually gets what she goes after instead of merely dreaming about it, as is the case with many other places.

## NOW COMES THE REIGN OF QUEEN MAY

## SEEK COLLECTION OF RARE MONIES

National Museum Out to Gather Old Coins of Value for Exhibition.

(By the Associated Press)  
PHILADELPHIA, May 1.—The forthcoming removal of the Philadelphia Mint's invaluable collection of coins, tokens and medals to the National Museum in Washington has aroused a feeling of disappointment in this city.

The collection, begun when the mint was established in 1792, is said to be one of the finest in the world. It comprises 1688 coins minted and used in the United States since the coming of the colonists. There also are thousands of other coins representing more than 40 nations.

It is impossible to estimate the exact value of the collection, which includes specimens of the New England shilling, an almost plain silver disc, dating from 1651 and made in the first colonial mint, established at Boston without the authority of the English Crown.

There are specimens of the "Franklin cent" minted in copper from 1787 on. Because of the expression, "Mind Your Business," engraved on the coin, it was thought Benjamin Franklin was responsible for the design. This has since been considered improbable. The coin was struck in New York by James Jarvis with whom congress contracted to coin 300 tons of copper.

A rare five-eagle, or \$50 gold piece, minted in 1877, is included in the collection, together with Ephraim Brasher's doubloon, struck by a New York jeweler in the eighteenth century.

The greater number of coins are those from foreign countries. There are antique coins from Great Britain, France, Greece, Belgium, Norway, Sweden and other European countries. Some of these coins were minted by imperial cities such as Augsburg and Bremen, as well as by bishoprics in Germany.

The collection contains three silver dollars minted in 1804; a half dime of 1792, bearing an eagle flying and the words, "Lib. Par. of Science and Industry—U. S. States of America"; gold coins struck in Philadelphia which bore for the first time "E Pluribus Unum"; coins which carried for the first time the words, "God and Our Country."

There are also a large number of private gold coins minted near the mines. A ten dollar gold piece struck by Templeton Reid, assayer of Georgia gold and bearing his name, was issued about 1800. A fifty dollar gold piece was struck by August Humboldt, United States assayer, and was made in the shape of an octagon. This practice was approved by the western states where coins were scarce. The state assayer of California issued a bar ingot with its value, weights, etc., engraved on it. The ingot is included in the collection to be shipped to Washington.

HENRYETTA.—Local boosters have raised \$45,000 and have been promised \$5,000 more of the \$50,000 they are campaigning to raise for the construction of a hotel here. Men who in 1904, raised \$20,000 to bring a railroad here are allied with later settlers to make the enterprise a success.

## RUSSIA MUST PROCURE TRACTORS FOR FARMS

(By the Associated Press)  
MOSCOW, May 1.—Faced on the one hand with a nation-wide need for auto trucks and tractors, and on the other with a struggling home industry in the manufacture of these machines, the government departments directing the foreign trade policy of Soviet Russia have not yet made up their minds whether they should stand for free trade or a protective tariff.

Russia has little money to spend for trucks and tractors abroad, but some day hopes to be able to supply every community with at least one farm tractor. Before the State Plan commission it was declared recently that during the next ten years, the nation would need 220,000 twenty-horsepower tractors but only 50,000 could be purchased abroad. The remainder will have to be secured elsewhere. Russian factories are now turning out a few tractors, and these are said to be of excellent capacity. Those favoring protection of this infant industry want a high tariff on tractors from abroad.

Several hundred tractors have been brought to Russia by various agricultural colonists and some foreign relief organizations, but they are sufficient only to replace the horses and other draft animals who died by the hundreds of thousands during the recent famine.

SHANGHAI.—Arrangements have been made to begin early in the summer the building of the new structure that is to house the American Club of Shanghai. This is to be a modern seven-story building on American lines. It will be located near the heart of the business district in Shanghai on Foochow Road across from the new municipal building.

## Reader Takes Newer Form of Iron—Feels Years Younger

"Six weeks ago I saw a special offer in the paper telling how thousands of people grow old in looks and energy long before they are really old in years, because, as examinations by physicians have shown, an enormous number of people do not have enough iron in their blood. I have been taking Nuxated Iron for two weeks; the results are simply astounding. The roses have come back in my lips and cheeks, and I can conscientiously say that I feel ten years younger."

The above is a typical hypothetical case showing the results that have been achieved by a great many people since we started this "satisfaction or money back" offer for Nuxated Iron. We will make you the same guarantee. If, after taking the two week's treatment of Nuxated Iron, you do not feel and look years younger, we will promptly refund your money. Call at once for a bottle of Nuxated Iron at

Gwin & Mays Drug Co.

## AMERICAN NATIONAL PARK IDEA TAKES HOLD IN JAPAN

(By the Associated Press)  
TOKIO, May 1.—Japan is to have seven national parks, similar to those in America if the plans of the home department are adopted.

The places suggested for reservation are the area surrounded by the seven Hakone ponds; the Japanese Alps; the O-Daigahara Terrace in Yamato Province; Mount Aso; the Unzen Spa in Kyushu; Nikko and Mount Bantai in the North-East. Most of these places already are famous and accessible, but to others new roads will have to be built.

Read all the ads all the time.

## BISHOP SAYS AMERICA IS WOMAN'S PARADISE

(By the Associated Press)  
CHICAGO, May 1.—The poorest woman in the United States is infinitely better off than the peon women of South America, Bishop W. F. Oldham, of Buenos Ayres, declared at a meeting of the employees and staff of the Committee on Conservation and Advance of the Methodist Episcopal church here.

Bishop Oldham has just returned from South America and Mexico. He said: "You can rate civilization from the place that women hold in that particular country. There used to be an idea that woman had no real place in the world."

"If there are any young women here who are discontented and wishing that they were rich, think of the mass of women in the peon class in South America who are not as respected as the women of the United States. The poorest of you is rich when compared with these."

The Bishop said that the ownership of millions of acres of land by rich landlords was detrimental to the advancement of the peons. The peon women, especially in South America, he declared, live in little shacks in small villages and are degraded specimens of humanity, depressed, with absence of all hope, ambition and aspiration.

"There should be no discontented women in America because they are well cared for and have good homes," Bishop Oldham concluded.

## BUSINESS READJUSTMENT ADD 10 JAPANESE UNEMPLOYMENT

(By the Associated Press)  
TOKIO, May 1.—Since last spring nearly 20 big factories, public and private, have discharged approximately 190,000 workmen, the majority of whom, according to the authorities, still are without fixed employment. The number is to be further increased this summer with 3,000 workmen to be discharged from the Tokio and Osaka arsenals, and even a greater number from the different military, naval and other government offices and institutions.

## A suggestion for making better fried potatoes

USE Mrs. Tucker's Shortening! Potatoes fried in Mrs. Tucker's Shortening have the same goodness as when you use the best butter. They brown evenly and delicately, without a trace of greasiness!

Mrs. Tucker's Shortening is an absolutely pure vegetable shortening. It is rich and wholesome and lacks entirely the indigestibility of an animal fat.

Whether you use it for baking hot breads or pastries or for all cooking purposes, you will be delighted with the result. Mrs. Tucker's is economical, too. It costs no more than ordinary shortening and goes much further.

Be sure to get the blue pail with Mrs. Tucker's picture on it. Mrs. Tucker's Shortening is a southern product.

Mrs. Tucker's Shortening

Made exclusively of choice Cotton Seed Oil. The South's own cooking fat.

# THE BOND BOY

The finest picture Barthelmess ever made.

George W. Ogden's famous story, bigger still in motion picture.

For the heart theme and high moral, we will go so far as to say, "The Bond Boy" can't be beat.

A story of a Virginia hill-boy who silently braved the gallows rather than speak at the cost of a woman's honor.

Even the Scriptures seemed to mock his darkest hour. He saved others, himself he cannot save.

And then a fugitive—out-cast—damned by the silence of a guilty woman.

There isn't a heart that won't feel the drama, the sympathy, the thrill of this fine picture.

German Brass Thieves Active  
BERLIN, April 30.—Doorknob thieves are causing Berlin householders much annoyance. Hotels, apartment houses, office buildings, and private dwellings are all prey to the searchers for second-hand brass.

In one of Berlin's leading hotels all the brass nozzles on the fire hose in the corridors disappeared one night, together with many other brass fixtures.

## POCAHONTAS WAS NICKNAME, CLAIM

Declares Real Name of Indian Princess Was Matoaka.

(By the Associated Press)

NEW YORK, May 1.—What was the name of the Indian princess of early colonial days who saved Captain John Smith from execution? "Pocahontas," would be the answer from almost any American school child versed in American history.

And "wrong," would be the report of E. H. Leech, of Greenwich, Conn., who has started a movement to have history textbooks altered in their stories of America's most famous native princess.

Stirred by recent reports of a search in London for the Indian princess' grave for the purpose of having her body brought home after nearly three centuries, Mr. Leech made a study of old historical sources, and says he has found that "Pocahontas" was merely the nickname or "little name" coined by her father, the powerful King Powhatan, in a moment of tenderness. It means "little tomboy."

The princess' real name, Mr. Leech declares, was "Matoaka."

Of more than a dozen prominent educators whom Mr. Leech wrote concerning his discovery, it was news to all save one, he said. The one was Harris Hart, superintendent of public instruction of the state of Virginia, who wrote Mr. Leech that Pocahontas had been recognized by her real name of "Matoaka" in her native state, although most folk even there clung to the diminutive "Pocahontas."

Among the authorities Mr. Leech cites is a document written in the script of William Strachey, secretary of the Virginia colony, who arrived with Lord Delaware in 1610. He wrote:

"Pocahontas, or Matoaka, the daughter of Powhatan, is married to a discrete English gentleman, Master Rolfe, after she had renounced idolatry and been baptized."

Strachey added that Pocahontas was the "little name" given to children in accordance with an old Indian custom, although she was called "Matoaka" "at more ripe years."

Mr. Leech also cited the inscription on a painting by Simon de Passe, done shortly after she had made her triumphant entry into England in 1616 as John Rolfe's wife. The inscription reads:

"Matoaka, alias Rebecca (her baptismal name), daughter of the powerful prince Powhatan, Emperor of the Virginias."

"Matoaka, alias Rebecca (her baptismal name), daughter of the powerful prince Powhatan, Emperor of the Virginias."

"Matoaka, alias Rebecca (her baptismal name), daughter of the powerful prince Powhatan, Emperor of the Virginias."

"Matoaka, alias Rebecca (her baptismal name), daughter of the powerful prince Powhatan, Emperor of the Virginias."

"Matoaka, alias Rebecca (her baptismal name), daughter of the powerful prince Powhatan, Emperor of the Virginias."

"Matoaka, alias Rebecca (her baptismal name), daughter of the powerful prince Powhatan, Emperor of the Virginias."

"Matoaka, alias Rebecca (her baptismal name), daughter of the powerful prince Powhatan, Emperor of the Virginias."

"Matoaka, alias Rebecca (her baptismal name), daughter of the powerful prince Powhatan, Emperor of the Virginias."

"Matoaka, alias Rebecca (her baptismal name), daughter of the powerful prince Powhatan, Emperor of the Virginias."

"Matoaka, alias Rebecca (her baptismal name), daughter of the powerful prince Powhatan, Emperor of the Virginias."

### PARENT-TEACHERS ASSN. POSTPONE MEETING

Parent-Teachers Association of the High school will postpone the meeting that was scheduled for May 3rd until May 10th. A program of interest is being planned.

### WOODS-ELLIOT

Friends of Miss Merle Elliott of Wynnewood who spent most of the winter in Ada, the guest of Miss Francis Case, South Broadway will be interested in hearing of her marriage, which took place Monday at high noon to Lee Wiley Woods of Checotah.

The marriage was solemnized in the home of the bride's parents surrounded by six bridesmaids dressed in rainbow colors and Miss Francis Case maid of honor. Lloyd Chism of Francis acted as groomsmen to Mr. Wood and little Kate June Case was flower girl.

Mr. and Mrs. Wood will make their home in Checotah.

### SKOVGAARD IN CONCERT AT EAST CENTRAL COLLEGE

What "Wichita Falls Record News" has to say of Skovgaard, the Danish violinist and wife who appeared there April 26th.

Axel Skovgaard, the Danish violinist, recognized as one of the greatest violinists of the world, captured the admiration and love of an audience at the Palace theatre last night when he appeared in a concert in company with his wife, Alice Skovgaard, who besides playing his accompaniments rendered several piano selections.

From the time he first came upon the stage, Skovgaard with his wonderful personality and magnetism completely won the attention of the audience and throughout the concert not a sound could be heard in the house. Skovgaard stands above six feet, three inches tall and weighs 250 pounds. Seldom has a musician appeared in Wichita Falls who so completely won the admiration of the audience, through not only wonderful playing but the strong personal magnetism and personality.

Not a selection was rendered but what received encore after encore and in every instance the big Dane, with his ever ready smile, answered the applause of the people in the audience. This also could be said of Alice Skovgaard, who was as ready as her husband in responding to the encores.

Probably the best selection rendered by Skovgaard was "Sierra Morena," which he composed himself. This was the last number on the program but after it was rendered the audience gave several encores and in every instance Skovgaard responded. Another beautiful selection was the "Indian Snake Dance," by Cecil Burleigh.

Alice McClung-Skovgaard is a finished artist at the piano and impressed the audience as much as her husband. The best received selection rendered by her was the "Frolie of the Waters," by Ravel. The selection was so realistic that one could almost imagine sitting on the shore with the waves lapping about his feet, then a swift breeze—then a stillness—and then the dashing of angry waves on the shore.

The two sororities of the East Central College have all plans in readiness for the presentation of Alex Skovgaard, master violinist, in a concert at the College auditorium tonight.

Skovgaard, a Danish violinist of international repute, comes to East Central as a result of probably the greatest musical effort of any school organization.

### ELOPEMENT IS HALTED; WRONGED HUSBAND KILLED

An interrupted elopement that results in tragedy and the sentencing to the gallows of an innocent youth provides one of the vital situations in "The Bond Boy," the First National attraction in which Richard Barthelmess is starring at the McSwain Theatre this Wednesday.

When Joe Newbolt, farm hand learns that Ollie, Pretty young wife of old Isom Chase, is planning to run away with a drummer he steps in and upsets their plans. He throws the drummer out of the house and while lecturing Ollie in her room old Isom appears. Suspecting that Joe is trying to steal his wife, Isom grabs a musket, which is accidentally discharged, killing himself.

Joe is arrested on a murder charge and refuses to talk. Alice Price, his boyhood sweetheart, believes in Joe's innocence, even when he is sentenced to die. However, Joe does not die. He escapes from the jail and in the exciting events that follow the mystery is cleared and the plot comes to a happy ending. The picture, directed by Henry King, is as big a triumph as "Tollable David." The supporting cast is led by Mary Alden and Mary Thurman.

### Lonely Gold Seeker Returns

(By the Associated Press)  
WINNIPEG, May 1.—Jufiro Wada, picturesque Japanese prospector, has just returned from Herschel Island, where he has been on the trail of gold. He maintains extreme reticence regarding his 2,500-mile trip, which he made alone with his five dogs.

Wada made his first journey to the Arctic region from San Francisco 32 years ago, and since then has achieved a wide reputation as a musher and prospector.

## FLOYD TO ATTEND STATE CONFERENCE

A. Floyd, superintendent of Pontotoc county schools, will take part in the discussions of county superintendents of the state on a proposed campaign for increasing the school fund of separate districts to \$15 per capita for students in regular attendance.

The conference of state superintendents of county schools will be held in Oklahoma City Wednesday and Thursday of this week when every county superintendent in the state is expected to attend.

State Superintendent M. A. Nash has urged this program of county superintendents in order that the rural schools may be made self supporting and be placed in the hands of the people.

Definite plans will be worked out as to the date of the special election to be called when the amendment to the constitution placing the rural schools within the hands of the people, will be voted on.

### UNDERWATER SCENES IN "MONTE CRISTO"

Sensational Escape of Edmund Dantes from Prison Full of Thrills.

### FOX PICTURE GREAT HIT

John Gilbert, Who Plays Hero, Is Expert Swimmer and Diver

Underwater scenes are an interesting feature of the new William Fox super-production, "Monte Cristo," adapted from the famous novel by Alexandre Dumas and constituting one of the big specials listed by Fox for the season of 1922-23.

Few scenes of this character have been used as a sequence or part of a dramatic narrative. Readers of the great novel will recall the sensational escape of Edmund Dantes from the Chateau d'If; how, after twenty years imprisonment, he sews himself into a sack, is thrown into the sea as dead, rips himself free from the bag and makes his way to the island of concealed treasure.

As this episode forms one of the most dramatic and thrilling moments of the play, the introduction of under water photography, showing every incident as pictured by Dumas, was first considered a risk because of the danger which lies in the usual methods of such filming.

However the feat was successfully accomplished, mainly because John Gilbert, playing Dantes, is an expert swimmer and diver, and was able, therefore, to lend dramatic truth to the performance, which a double would have been unable to do.

"Monte Cristo" will commence an engagement at the American Theatre on Wednesday.

### Notice Choral Club.

Community Choral singers will please come to rehearsal tonight prepared to pay for the five numbers that we are now working on, which will be seventy-five cents. Rehearsals will begin promptly at 7:30 on account of the concert at the normal. Those who wish to attend that, may feel free to leave at 7:15. Be in your places and we can put our next concert over as creditably as the first one. We had a splendid rehearsal last Tuesday night. Let us make this one better. Several new voices were there. Come and meet them.

MRS. BYRON NORRELL, President.

### CORPUS CHRISTI OFFICIALS RELEASED FROM CHARGES

(By the Associated Press)

CORPUS CHRISTI, Tex., May 1.—Indictments against city officials of Corpus Christi charged with conspiracy to unlawfully pay W. L. Pearson \$63,892 were quashed by District Judge A. W. Cunningham today. The court sustained motions by defendants that the bills returned by the grand jury charged no offense. Indictments against Pearson in the same connection were quashed by Judge Cunningham yesterday.

### GALEY WILL BUILD NEW SCHOOL HOUSE

Supt. Floyd states that the proposed bond issue of \$3,500 was carried unanimously in the Galey district. A new school house of four rooms will be built and high school grades will be added to the curriculum.

## COLLEGE NOTES

Preparations for the annual May fete presented on the college campus each spring are going forward rapidly. Under the direction of Miss Anna Weaver Jones all who are to take part in the performance are learning their parts and will be ready for the presentation of the fete Thursday evening.

The program for the fete included a number of dances, the crowning of the May Queen, who will be attended by forty lords and ladies. The performance will be given on the college athletic field.

On Friday night representatives of the six state teachers colleges will gather at the auditorium of the East Central college and will then compete for honors in reading. Students are expected from all of the teachers colleges. The prize will be a gold medal to be presented to the winner. The public is invited to hear the contest.

Miss Lena Hicks and Miss Malcolm Reed appeared before the student body this morning in a contest to determine who will represent this school. Miss Hicks, reading "An American Girl," won the right to contest for the medal.

In 1921 there were 10,000 Japanese civilians on the Siberian mainland, now there are less than 7,000.

## Shabbytown or Spotlesstown

There is not an attractive feature to SHABBY-TOWN. There have been practically no changes, excepting increased decay, in a generation or more. Its streets are filled with a rank growth of weeds; its buildings weather-beaten, paintless and every year more dilapidated; its population listless, without the effort or even the desire to improve the surroundings. Not a chance to attract new citizenship. People seeking a new home desire to better their condition, and SHABBYTOWN has nothing to offer.

But SPOTLESSTOWN adds new citizens to its population daily. Its streets are clean and nicely graded; its buildings show taste of design, an air of permanency, and are all spic and span in attractive coats of paint.

The people of SPOTLESSTOWN are ever alive and up and doing for the betterment of their community. They are proud of their town because of its appearance. And their children will be worthy successors of their parents because of clean, wholesome, attractive atmosphere in which they have been reared.

## WHICH DO YOU WANT YOUR TOWN TO BE?

### CLEAN-UP, PAINT-UP and KEEP-IT-UP.

KNOW ALL MEN, WOMEN AND CHILDREN BY THESE PRESENTS:

THAT, Whereas the NATIONAL CLEAN-UP and PAINT-UP CAMPAIGN has resulted in many advantages to community life throughout the United States.

In safeguarding HEALTH;  
In promoting THRIFT;  
In futhering FIRE PREVENTION;  
In stimulating CIVIC PRIDE; and  
In making the "HOME CITY BEAUTIFUL"

NOW THEREFORE, Be it known that plans have been perfected for a thorough Clean-Up and Paint-Up Campaign in Ada beginning today and continuing until the task is well done; the date to mark the opening of a real campaign of persistent and constructive effort in cleaning up and keeping it up. In the worthy movement every citizen is urged to do his or her part to make this community CLEAN, HEALTHY, THRIFTY, SAFE and BEAUTIFUL.

(Signed) W. H. FISHER,  
Mayor.  
DR. SAM A. McKEEL,  
City Health Officer.

Sledge Lumber Co.

Dascomb-Daniels  
Lumber Co.

Sutherland  
Lumber Co.

Harris Wallpaper  
and Paint Co.

The Lions Club is interested in making Ada a cleaner, healthier town in 1923. To that end we hope to see a campaign against flies, mosquitoes, filth, rubbish, weeds, etc.

We also favor a general CLEAN-UP, PAINT-UP, and KEEP-IT-UP CAMPAIGN. The first impression a visitor receives upon his entry into a community is generally lasting. Let's give our visitors an impression of civic pride, of cleanliness and good taste.

Let it be said that Ada is not only one of the best towns in the state, but one of the most attractive in appearance. Let's add to its already enviable reputation by making it the cleanest town in Oklahoma.

Let's CLEAN-UP, PAINT-UP and KEEP-IT-UP.

THE LIONS CLUB OF ADA

## Oklahoma City to Select Officers for Government

OKLAHOMA CITY, April 3.—Oklahoma City voters are today selecting their municipal ticket.

O. A. Cargill, democratic nominee, had the endorsement of the farmer-labor league in the primary and is regarded as having assured the support of the machine that backed Walton as mayor.

The republicans have appealed for a non-partisan vote for their nominee, W. J. Johnson. Besides a mayor two city commissioners, five school board members and a treasurer of the school board are to be elected.

## "Iron Jaw" to Fight Again

Claude Sparks

Claude Sparks, the "Iron Jaw" fighter of the Ada ring left today to fulfill his engagement with Frank Adams at Perry in a 10-round go.

Sparks has been taking the beating of Billy Conley and Arche Cooper here for the past week and has assumed some aggressive merits as well as his endurance in taking punishment.

Sparks, under the careful eye of Conley, has developed tricks that will make his a feared opponent in any match. Conley was favorably impressed with Sparks as they finished training here today.

Sparks, while counting a few victories in his career, has met some of the best in the ring and has never been knocked out.

Adams, Sparks' opponent in the fight at Perry Thursday, is reputed to be one of the old timers in the ring.

## MONEY BILLS SLIP BY LEGISLATURE

OKLAHOMA City, April 3.—Representative James C. Nance, chairman of the appropriation committee of the house, declared today that half a dozen money bills carrying thousands of dollars were slipped through without the knowledge of many members in the last night of the session and said he would remain near the governor for several days to urge that he veto them.

"A number of these," said Nance, "were measures that had been turned down by other legislatures, or vetoed by various governors. They include claims against the state by a number of individuals."

The appropriation committee chairman declined to identify the measures "in order to protect the governor from the lobby of persons interested in the bills."

## NATIONAL GUARD RECRUITING OPEN

Local Officers of Artillery Company Open Recruiting for New Members.

Battery F, the local unit of the National Guard artillery has fifteen openings for young men in and around Ada. Anyone interested in learning something of the military side of life and wanting to earn regular spending money while learning is advised to look up Capt. Robt. Kerr or Lieut. Whit Fentem. The National Guard is the best place in town to show patriotic inclination, loyalty to home town, state or nation.

Officers point out that it is not long before the annual fall encampment at Fort Sill and every man who can get off for an hour's drill each day and for fifteen days during the period for encampment should take advantage of the summer training.

The government furnishes food clothing and pays you while at camp. It is an experience worth having. From Fort Sill to Lawton there is street car service and a taxi service over a five mile concrete highway, which makes it easy matter for a guardsman to reach town, at the fort there is a wonderful bathing pool in Medicine creek. This is open to the National Guardsmen.

During the encampment the Guards are furnished transportation to Medicine Park, one of the states-most famous summer resorts.

## FOUR FACING TRIAL IN ELECTION ROW

(Continued from Page One) tiffs, vs. L. M. Morris, D. G. Johnson and Frank Redwine and all Election Officials of the Town of Allen, Okla., Defendants.

ORDER.  
Now on this 2nd day of April, 1923, this cause came on for hearing upon the petition of the Plaintiffs, for restraining order and alternative writ of mandamus, and the Court, after having heard the complaints of the plaintiffs and finding that on the 24th day of April, 1923, that an order was issued by the Court commanding the county election board, to place upon the ballots to be printed for use of election to be held in Allen, on the 3rd day of April, 1923, the names of the plaintiffs, and the Court, further finding that his order had been ignored by said county election board, and the following names failed to be printed on said ballots to-wit: A. L. Castleman, John Luke, M. J. Butler, E. A. McIntyre, Docke Kimp and R. L. Donaghee, and further finds that the defendants are about to use ballots furnished by said county election board not in conformity with his said order and not containing the names of all the candidates nominated by the citizens of Allen, at a duly called mass meeting of the citizens whereby they petitioned the county election board to print all of said names of candidates nominated, the court finds, that the plaintiffs, are entitled to the relief prayed for in their petition.

It is therefore ordered, decreed and adjudged by the court, that the defendants, herein the Judges, Clerks and Inspectors and all and any officials of the election board, of the town of Allen, refrain from using any of the said ballots furnished by them by the said county election board, for the reason that they do not have the names of all the candidates printed on them, and it is further ordered by the court, that they do use the ballots furnished by the plaintiffs, herein, for the reason that they conform to the law, and contain all names of candidates to be voted upon by the citizens of the Town of Allen, Okla., on the 3rd day of April, 1923.

It is further ordered by the court that the defendants herein do use the said ballots furnished by the plaintiffs herein, under the penalty of the law, and hereby decree that they use no ballots that does not contain and have printed thereon the names of the plaintiffs herein. Failure to comply with the order herein will be punished by the court, for contempt and will be summarily dealt with herein take notice and fail not.

J. W. BOLEN, District Judge.  
Received the within order on the 2nd day of April, 1923, at 11:30 p. m. and executed the same on the 3rd day of April, 1923, at 8:05 a. m. by serving copy of same on L. M. Morris, D. G. Johnson and John Brains same being all the election officials, holding the election in the town of Allen, Okla., on this date.

Dated this 3rd day of April, 1923. J. E. SLOAN, Sheriff.  
By R. G. Filmore, Deputy.

Filed in open court and day of April, 1923.

L. E. FRANKLIN, Court Clerk, Pontotoc County, Okla.

The following is the warrant served on Morris and Johnson:

State of Oklahoma, Pontotoc County—ss.

To District Court

A. L. Castleman vs. Sam A. McKeel, et al.

Ex Parte State of Oklahoma, against L. M. Morris and D. G. Johnson: To the Sheriff of Pontotoc County:

You are hereby commanded to forthwith bring them before the district judge of Pontotoc county, Oklahoma to answer a complaint wherein they are charged with contempt of court and you will fail not under penalty of the law.

This 3rd day of April 1923.

J. W. BOLEN, District Judge.

## CONTROL OF KLAN INVOLVED IN SUIT

(By the Associated Press)

ATLANTA, Ga., April 3.—A court order placing Col. William J. Simmons authority in the affairs of the Ku Klux Klan and enjoining the disbursement of any money of the order was issued late today by Judge J. E. D. Thomas of the Fulton county superior court.

The hearing of the case was set for next Saturday morning, April 7, before Judge George Bell.

Col. Simmons' action was directed against Imperial Wizard Evans and members of the Wizard's staff. The petition alleges that Col. Simmons as Emperor of the Klan is highest in authority and charges that Evans and his staff with interfering with the Emperor in his control of the order.

The court action is the result of friction between Emperor Simmons and Wizard Evans over the organization of the "Kamelai" a Klan for women, which the emperor announced several days ago was being organized.

Wizard Evans last week ordered Klan members not to recognize the Kamelai. Simmons replied in a statement in which he said that the Klan everywhere should disregard the order to ignore the Kamelai.

New Justice Sworn In

(By the Associated Press)

OKLAHOMA CITY, April 3.—Judge Charles W. Mason of Nowata is expected to be sworn in today and a member of the state supreme court to succeed Chief Justice John H. Pitchford.

## SHORT FUR COAT IS SPRING FAD

For chill spring days fashion is offering new short fur jackets in such soft pelts as ermine, mole and mink. They are smart over frocks or separate skirts and women in the northern states will welcome them, for spring often delays until May or June in the north. This light warm coat of mole introduces a smart sash of Persian silk heavily fringed.

## EASTER SERVICES GIVEN AT CHRISTIAN CHURCH

A splendid program was given by the Sunday school of the First Christian Church Sunday evening. The name of the program was a cantata "King of Kings", under the direction of Mrs. F. G. Davis. The program was varied, exceedingly well rendered and gave evidence of excellent training. Special mention is made of the reading given by Miss Lena Hicks, the quartette by Mildred Robertson, Edith Moore, Chas. Cunningham and Oscar Parker, and the numbers given by the girls glee club. A delightful number was a vocal solo by Miss Jessie Mae Cochran "Lovely Eastern Star." Other numbers were given by the Junior and the Intermediate boys and girls.

The entire program was enthusiastically received by the large audience present and gave evidence of splendid training and direction on the part of Mrs. Davis, who was largely responsible for its success.

## WILL ATTEND U. C. V. REUNION AT NEW ORLEANS

Miss Sybil Harwell will attend the reunion at New Orleans with Miss Francis Case as maids of honor to Miss Dorothy Duncan who will be the sponsor from Camp William F. Byrd. Mrs. H. W. Wells will chaperone. Miss Celma Bolen was appointed also to go but finds it impossible to go at this time.

The party will join the Tulsa representatives aboard a special train that will arrive at Ada Sunday night over the Frisco.

## COMMUNITY SUNDAY SCHOOL ORGANIZED AT CONWAY

Mrs. Bruno Mayer who recently moved to her home at Conway, District No. 17, has organized a community Sunday school. With the help of Mrs. W. B. Duncan and her class at the Methodist church here in town, the school will be furnished with bibles and literature. Mrs. Mayer says the work is growing and wishes to express her gratitude to the members of the class for their assistance.

## POSTPONED MEETING OF FORTNIGHTLY CLUB

The Fortnightly Study Club have postponed their meeting of April 5 to April 19, which will be held with Mrs. R. S. Newcomb, 821 East Tenth street.

## COLLEGE NOTES

Assembly at the college this morning was the occasion for presenting to the members of the basketball team of this year the honor sweaters in recognition of their record while representing the school. The program opened with two selections by the band, followed by the male quartet. President Linscheid then spoke of the thanks due to Representative Brydia and Senator Looney for their efforts in securing the general state aid for the local college.

Assistant Coach Joe Milam took charge of the presentation of the sweaters. After a short talk on the team and its record for the past year Mr. Milam gave sweaters to each of the following: Don Evans, Captain of this year's team; Arthur Harrison, Cly Newton, Earl Johnson, Jack Kelly and Cole Jobe. Two members of the team were not present, Eddie Miller being in Colorado and Paul Waner in San Francisco.

About one hundred of the children of the training school, assisted by eight young ladies from the college, will present on Friday night, 8:00 o'clock, in the college auditorium the play: "The Pixies."

The preparations for the play have been under the direction of the training school supervisors, and is by far the most ambitious attempt ever made by the training school.

The plot of the play includes an attack by goblins upon fairyland, which is defended by the pixies. All the characters will be in costume.

At a meeting of the tennis enthusiasts this morning places were drawn for the school tournament, which will take place this week at the college. About two dozen entered for the men's singles. Professor Molloy, who is in charge of the tennis, expects to select twelve men from this group on their showing in the tournament, and from the twelve will later choose the team which will represent the college this year.

## INSTALLATION SERVICES AT PRESBYTERIAN CHURCH

The Auxiliary of the Presbyterian church held a very enthusiastic meeting at the church Monday afternoon. The new officers were installed and plans made for carrying on the women's work in the church life. Refreshments of sandwiches and coffee were served to about fifty members.

## GET-TOGETHER SUPPER WITH PRESBYTERIANS

The regular monthly "get together" supper will be spread in the Presbyterian church dining rooms Wednesday evening. A menu of meat sandwiches, potato salad, pickles, pie, cake and coffee will be served when the new members and the days workmen will be guests of the regular attendants.

English language contains nearly 500,000 words.

## Churchmen Discuss Theory of Talking With Departed Souls

(By the Associated Press)  
SPOKANE, April 3.—Church people and many others interested in the possibility of the life to come were discussing today the prediction made here yesterday by Rt. Rev. Herman Page, bishop of the Spokane diocese of the Protestant Episcopal church, "that communication with the spirits of the dead "will eventually be as possible as it is now to communicate by wireless."

Bishop Page made this statement at a meeting of the ministerial alliance. He also took occasion to give recognition to the Christian Scientists, who, he said "would progress as long as other churches refrained from taking part in spiritual healing."

## STREET CAR CONDUCTOR STABBED BY NEGRO

(By the Associated Press)  
OKLAHOMA CITY, April 3.—Berk Holtzclaw, a local street car conductor, was stabbed by a negro passenger, today when he ordered the negro to vacate a seat reserved for white passengers.

The negro was roughly handled by the other passengers before being turned over to the police. The conductor's injuries are not expected to prove serious.

## SUPREME COURT UPHOLDS OKMULGEE CITY CLERK

OKLAHOMA CITY, April 3.—The Oklahoma supreme court today upheld the action of Arthur L. Ginn, city clerk of Okmulgee, in denying an initiative petition for an amendment to the city charter providing for a managerial form of government for that city.

## Labor Shortage Reported Over Country

Statistics from Separate States Show Acute Shortage of Laborers in Many Sections.

(By the Associated Press)

An actual shortage of workers in some class of labor, including farm help, exists in 23 states of the Union, while in 21 other states the unemployment, so prevalent in 1920-21, has been completely absorbed and in only four states does general unemployment exist, according to figures, statistics and reports gathered from labor leaders, industrial commissions and state and federal employment agencies from all of the 48 states of this country.

Increases in wages are noted in so many states and in so many different trades and occupations that they point to a general trend in that direction. These include an 11 percent increase to 200,000 packing house employees, a 15 percent increase to carpenters, a 12 1-2 cents an hour increase to common laborers and a general increase among steel workers, all in Chicago, and a 12 1-2 percent increase to 200,000 workers in the woolen and cotton mills of New England. The reports also show a general increase in wages in Michigan and an increase to the building trades, metal and machinery workers in New England. Increase in wages of ranch hands in the northwest; carpenters in Kentucky, farm labor in Iowa and Minnesota; bricklayers and plasterers in Montana and plasterers in Buffalo are also shown. Eight thousand Bethlehem steel company men have received an 11 percent raise. Common labor is at a premium in Ohio, textile mill workers and the plasterers have received increases in Virginia, and the wages of miners have been increased in Arizona.

In addition to these, the reports show skilled laborers getting \$1.25 an hour and plasterers \$1.50 an hour in St. Louis, the highest wage ever paid there for this class of work, while negotiations are now on in New York between contractors and the building trades for an increase in wages of bricklayers, carpenters, plasterers, plumbers and allied trades by \$1.00 to \$2.00 a day.

The street car men in Boston are reported to be on the verge of asking for more money, while the shoeworkers in Massachusetts have an increase in wages pending before an arbitration board. There is also a movement on in Boston among the building trades to ask for more money.

Reports from only one state shows that wages have been lowered. This is in Louisiana, where the pay of common labor has been sharply cut.

**Shortage in Farm Labor.**

The survey shows that in 14 states in the central, middlewestern, western and southern sections a shortage in farm help confronts the tiller of the soil this spring; that in the five states of New York, Indiana, Kentucky, Illinois and California, a shortage is shown in workers to carry on the huge building programs that are planned. In nine states skilled laborers are in demand with jobs a long begging while in four other

states the shortage comes in common labor.

The building boom is noted in 17 states and takes in territory in every section of the country, while a general boom in all business is reported from the seven states of New York, Pennsylvania, Ohio, Indiana, Illinois, Missouri and Delaware.

The reports show that only in Oklahoma, Tennessee, Georgia and South Carolina does an excess of workers over jobs exist generally. True, there is a surplus of workers in clerical help, porters and chauffeurs in New York, Kentucky, North Carolina, Oregon, Washington and California, but in each of these states the workers in other lines are employed and in certain lines a surplus of jobs exists.

That a period of industrial peace has settled over the entire country is indicated by the reports of only 9 strikes of any consequence throughout the length and breadth of the land. Some of these are trivial at present, and none of them appears to cause more than a ripple of local interest. Figures in these is the big shop men's strike of last July that in some quarters is still in existence, and in other quarters is reported to be over and done with. There are two small strikes among stevedores at New York, and Somerset county coal strike near Pittsburgh that has been hanging fire for some months, a strike of three hundred workers in the silk mills at New London, Conn., strikes of painters, electricians and plumbers at Omaha and a molders' strike in Delaware.

The fourteen states that report a shortage in farm labor are: Illinois, Iowa, North Dakota, Nebraska, Minnesota, Wisconsin, South Dakota, Virginia, South Carolina, Montana, Idaho, Oregon, Washington and California. The states that indicate an excess of jobs over skilled workmen to fill them are: New York (both male and female) Ohio, Illinois, Kansas, Montana, Arizona, Connecticut, Maryland and Mississippi.

### Building Boom Reported

An extraordinary building boom is shown in the following states: New York, Pennsylvania, Virginia, Louisiana, Florida, Ohio, Illinois, Kansas, Indiana, Iowa, Kentucky, Missouri, Tennessee, Arizona, Nevada, Idaho and California.

The states reporting that all of the unemployment prevalent in 1920-21 has been absorbed and that conditions are normal in this respect are: Maryland, Delaware, Maine, New Hampshire, Massachusetts, Vermont, Rhode Island, Kansas, Wisconsin, South Dakota, Michigan, Texas, New Jersey, West Virginia, Alabama, Arkansas, North Carolina, Colorado, Wyoming, New Mexico and Nevada.

In Pennsylvania it is reported that negroes are being brought up from the south to work in the mills, while in the southern states this report is confirmed through statements of the unrest among negroes in certain territory and a

tendency to desert the south for more wages in northern manufacturing plants.

Greater New York has 44,000 dwellings under construction, besides hundreds of huge business and municipal projects, and is exceeding last year's program of new building by nearly \$50,000,000 a month.

Railroads are preparing to make new demands on the labor market by spending in the New York district, a part of the \$1,100,000,000 appropriated for work throughout the nation in 1923, and in manning all shops full force to put rolling stock in order for an unprecedented tonnage expected in the fall.

Present conditions and prospects for the next few months were described by New York railroad officials as "normal, with sufficient skilled and unskilled hands, and including an astounding efficiency among shopmen, better than at any time since before the war."

### 15,000 Union Men Out

The American Railway Association reports 15,000 union shopmen, employees of six roads in the New York district when the walkout occurred last July, still on strike. It is predicted that they would be absorbed by the roads as shop forces are increased.

A possible elevation of the scale for maintenance of way men, classed as common labor and now receiving an average of 37 cents an hour, was seen by rail chiefs in the recent receipt by a half dozen roads of requests from union officials for conferences with a view to readjustments. Officials of the roads involved declined to discuss their attitude toward the requests. Officers of national railroad associations indicated, however, that if the supply of workers continues to dwindle, an increase of the 37 cent rate is likely.

Included in the major projects of railroad construction to be undertaken when conditions are most favorable are extensions through eastern Florida, a 200-mile cut-off on the Illinois Central between Chicago and New Orleans, the Castleton cut-off on the New York Central in New York state, electrification and double tracking on the Santa Fe line to the Pacific coast, extension of the Southern Pacific systems into Mexico, and the construction of additional terminal facilities along the Great Lakes.

The National Industrial Conference Board at New York, from a survey of large cities recently completed, estimates there are 13 jobs for each 14 workers throughout the nation.

Chicago reports everything peaceful in the labor situation, despite the fact that nine unions have not signed the Landis award. There are no strikes, however, that are worthy of the name, and none are looked for among the building trades.

North Dakota reports a shortage in physicians.

made in Pontotoc county, a record never before made here, and it is too much to expect this to keep up many more years. It is likely to turn the other way at any time, hence Mr. Hill's idea of planting other kinds of feed which will carry the county over in case the corn crop should fail. Of course another good crop of corn may be made this year, but it is best to be prepared for the worst at all times.

The Poultry Association will meet Thursday evening at 7:30 at the chamber of commerce rooms. This is the regular monthly meeting and will be a good one, judging from the ones recently held. A feature of the evening will be a program by the club boys and girls of Homer.

Until two years ago a cream can was almost unknown in Pontotoc county, but when the weevil made his devastating raid in 1921 many people turned to cream selling as a means of realizing something for their feed, which that year was worth almost nothing, and to get by until times improved. The business has continued to grow until now several thousand dollars are

received every month by the farmers from this source. From reliable information on the quantity shipped from Ada brought some where around \$1,000, which is probably about the best weekly record made here.

On a recent visit to Roff J. B. Hill had a talk with the proprietor of a cream shipping station who estimated the shipments at Roff to be around \$2,500 per month. This man, who also runs a store, stated that on the previous Saturday his cash sales had been \$350 against \$300 the best day of the cotton season last fall. Mr. Hill was also informed that in recent months the hardware men of Roff had sold 45 cream separators and it was known that this was not much over half of the total number bought by farmers in that part of the county. It certainly looks like the dairy business is here to stay.

ROME, May 1.—Two communists were killed and several others wounded in a conflict with national militia forces at Milan today when bands of communists attempted to prevent railway men from working, according to semi-official accounts of the incident.

## Smart Footwear

—for Particular Women  
—is to be had at WILSON'S

OUR (\$5.00) OXFORDS and STRAP SANDAL PUMPS

The Woman who has this price in mind, (and so many have this Spring) will scarcely believe her eyes. IT CERTAINLY is gratifying to shop at a store where you find many styles of shoes, for any member of the family, and so reasonably priced.

## PHYSICIANS SAY WEED HARMLESS

Noted Authorities Oppose Idea That Smoking is Injurious.

(By the Associated Press)

LONDON, April 12.—The danger to smokers from nicotine poisoning is declared by Dr. E. E. Roger to be "so small as to be almost negligible." This should be tidings of comfort and joy to many smokers in America, where, according to dispatches received here something like a crusade is underway against "My Lady Nicotine." She is there denounced it is said, as a "disappointed jade who is responsible for much that is injurious to health."

Dr. Roger's opinion is based on experiments conducted by himself to determine the action of fire on the tobacco consumed. He has just published an account of them with the conclusions he has reached.

He first took ten grains of tobacco steeped in alcohol and water in order to extract all the nicotine. He said the solution was strong enough to kill a dog weighing four stone.

He then took a similar quantity of the same tobacco and burned it in a pipe so constructed as to retain the whole of the smoke produced. The liquid resulting was found to have no worse effect on a dog than to trouble his digestion. The dog was of the same weight as the dog on which nicotine had been used with fatal effect.

Dr. Roger says he found that combustion destroys the nicotine, or rather transforms it into creosols, and other substances which if they are rather irritating are nevertheless excellent antiseptics. The pipe or cigarette-holder he says should be kept clean, but with that danger guarded against there is no other. "In these conditions," he states in conclusion, "tobacco may be even good for the health."

## Farmers' Column

—By—  
Byron Norrell

Agent Hill is stressing the importance of planting an ample feed crop this year. For four years fairly good corn crops have been
